Don't Miss the Amateurs To-morrow, and
Remember the Big Sunday Concert.NEW CHAPEL READY
TO OPEN ON MAY 1Festival Week Will Be Held at
Cathedral of St. Peter and
Paul. It Is Announced.

Plans for the opening of Bethlehem Chapel, at the Cathedral of St. Peter and Paul, were discussed at a meeting of the Cathedral council, held at the residence of Bishop of Washington, yesterday afternoon. The chapel, which will be the first section of the new cathedral to be opened for services, and which is a memorial to the late Right Rev. Henry Y. Satterlee, right Bishop of Washington, will be opened on May 1.

A festival week will be held during which a number of prominent Episcopal clergymen from all parts of the country will preach in the chapel. The list of clergymen who will participate has not been prepared. Music will be furnished by the Cathedral choir, and the new \$10,000 organ, which was recently installed will be used for the first time.

Dr. W. L. De Vries presided at the meeting yesterday in the absence of Bishop Harding, who is confined to his bed with an attack of grip. Thirty-five members of the council were present.

Rev. C. B. Stetson, pastor of St. Mark's Episcopal Church, and Justice Linton, of the United States Supreme Court, were elected members of the council.

80-21 to California, March 1 to April 31. Tourist sleeper without change. Berth, 2c. Washington-Sunset Route, A. J. Poston, 905 E. 7th St.

TEACHERS IN NEED
OF HOME SUPPORTRabbi Simon Says Co-operation Is
Only Solution of Present Education Problems.

Greater co-operation between the home and the school as the solution of many of the problems of present education was urged by Rev. Dr. Abraham Simon, of the Eighth Street Temple, in an address last night before the Central Home and School Association at a meeting in the assembly hall of the McKinley Manual Training School. The subject of the address was "Training for good citizenship in the home."

Rabbi Simon said that if there were more conferences between parents and teachers, the pupils would make greater progress. He said that the progress of many pupils at present is retarded because of misunderstanding and lack of co-operation between the home and the school. The speaker praised the association for its efforts in bringing about a tie of helpfulness between the home and the school and the parents and the teachers.

An illustrated lecture on school and back yard gardening in the District was given by Miss Sipe, of the Normal Home and School Garden Association.

A violin solo was rendered by Mrs. J. C. Thomas and Miss Mary L. Lister, who were accompanied by a vocal solo, W. H. Richardson, president of the association, presided at the meeting.

TO URGE PASSAGE
OF BAD CHECK LAWRetail Merchants Will Request the
Commissioners to Have Bill Introduced in Congress.

As the result of action taken last night at the regular monthly meeting of the Retail Merchants' Association, President Joseph Strasburger will today call upon the District Commissioners and urge them to have a bill introduced in Congress embodying a worthless check and "C. O. D." law.

Members of the association declare there is no adequate law now in force in the District covering the passing of worthless checks and the failure to pay for goods sent cash on delivery. Recently laws covering these offenses were passed in Virginia, and members of the association are anxious that similar laws be enacted in the District.

A resolution was adopted stating it is the opinion of the association that contract for furnishing the uniforms for all city employees should be awarded to Washington concerns, and not to out-of-town establishments. At present the firm's uniforms are made by local concerns, and also the policemen's hats.

Members of the association believe that all uniforms, including those of letter carriers, should be furnished by Washington firms.

A committee of three was appointed to arrange for the purchase of the uniforms, which will be in the form of a business men's hushum. In other cities trade organizations have met with great success in having their uniforms made in the middle of the day at a luncheon instead of at night. If the experiment is successful here the night meetings of the association will be discontinued. It is believed the noon day meeting will serve to increase the attendance of members.

EDUCATORS "RECALL" SLAP.
Resolution Reflecting on Examining Board Is Rescinded.

After a long meeting, marked by factional bitterness, the High School Teachers' Association yesterday voted to rescind the resolution recently adopted to examine the board of education to pay all applicants for promotion at the examinations to be held on April 1 and 2, and at all examinations held thereafter, to compare their papers with those of other candidates.

The resolution, it was said at the March meeting, was a reflection upon Miss S. E. Simons and Harry English, members of the examining board, and a direct slap at the present administration. Friends of the two examiners made efforts to have the resolution rescinded, as a result of which a special meeting was called for yesterday. The resolution was voted down. Miss Rebecca E. Stanley presided at the meeting.

TELLS OF WORK AMONG BLIND.
Miss Holt Gives Interesting Lecture on Gotham's Sightless.

The District Society of the Sons of the American Revolution held one of its most interesting meetings of the season last night at Raucher's. The newly elected president, William V. Cox, presided, and Dr. William A. Jack gave a delightful and instructive account of "Colonial days in Newport."

A musical programme was given by Mrs. E. B. Spencer, pianist, and F. C. Schaefer, bass. Several members made short talks on the progress of the society, and a buffet supper was served. The following were admitted to membership, having been elected at the February meeting: Robert Edgar Auld, James Edward Bagley, Rev. James Michael Nourse, George Merritt Potter, and Charles Henry Truner.

TELLS OF WOMAN'S MISSION.
William Hard Addresses Women of National Civic Federation.

"Women of to-morrow will devote most of her leisure to world problems having to do with making life livable." Thus spoke William Hard, author and economist, of New York, before the women's welfare division of the National Civic Federation, at Raucher's yesterday morning. He delivered a brilliant address on the social and economic tendencies of the times.

MRS. GRACE DENIES
SHOOTING HUSBAND

Continued from Page One.

views from me must come from my attorney. The Herald reporter then turned to Attorney Branch.

"Atlanta dispatches received to-day state that it is the belief that Mrs. Grace will never come back to Atlanta. Is this true?" the attorney was asked.

"Anxious to Make Trial." "No effort was made to conceal Mrs. Grace's departure from Atlanta or her destination," replied Mr. Branch. "It is simply a business transaction, and no one is more anxious for the trial to take place than Mrs. Grace. Death alone can keep her away."

"And when the case comes to trial the real truth will be made known, and she will not only be acquitted, but will be vindicated."

"Asks Her Husband's Condition." During the conversation with Attorney Branch, Mrs. Grace turned to the reporter, and in a voice trickling with emotion, said:

"What are the latest dispatches concerning my husband's condition? I do hope that he is better."

When the reporter informed her that Grace's condition was reported as being worse, Mrs. Grace turned her head, with tears streaming from her eyes.

A telegram received late yesterday afternoon stated that an effort was made before the grand jury at Atlanta to return a true bill against Mrs. Grace in order that she might be rearrested and returned to Atlanta on her arrival at Philadelphia. The telegram stated that Solicitor Dorsey declined to take up the case at once, although urged to do so by the attorneys for Grace.

"Can Prove Her Innocence." "I feel positive that we will have no trouble in proving Mrs. Grace's innocence," said Attorney Branch in conclusion. At this point Mrs. Grace turned to the reporter and said:

"You will have to excuse me now, as I am too ill to be interviewed or listen to an interview any further, but I am sure that the world will know beyond a doubt that I am innocent of a crime which I am charged."

At this point the Southern train pulled into Washington, and ten minutes later it was northward bound with Mrs. Grace trying to get a much-needed rest.

SENATOR TAYLOR
IS SERIOUSLY ILLWill Be Operated Upon To-day for
Abdominal Trouble, and Is
in Weak Condition.

Senator Robert L. Taylor, of Tennessee, will be operated upon to-day, it was announced last night, for serious abdominal trouble. On account of Senator Taylor's weakened condition, the result of prolonged illness that has confined him to his bed from time to time since the first of the year, fears are entertained for his recovery. His affliction reached a critical stage the past week.

Senator Taylor was governor of his State for three terms and a member of the House of Representatives twice before he was elected to the United States Senate, in 1906. He is probably the most popular member of the Upper House of Congress that Washington has seen for a decade.

PLAN FOR PERSIAN
CONFERENCE HERE

Important Meeting of Oriental Society to Be Held in City Next Month.

A meeting of the executive committee of the Persian-American Educational Society was held yesterday afternoon at the home of Mrs. Arthur J. Parsons, 1704 Seventeenth street northwest, to lay plans for the conference of the society to be held in this city the latter part of April.

One of the features of the conference will be the lecture of Abdul Baha Abbas, leader of the Bahai movement, who will reach this country on April 7, and will spend a week in Washington at the time of the conference.

Other speakers will be Prof. William Jackson, occupant of the chair of Oriental Literature at Columbia University, and Albertus H. Baldwin, chief of the Bureau of Manufactures, Bureau of Census, who will have as his subject the commercial relations between Persia and America. The meeting will be held in the assembly hall of the Public Library.

NATIONAL BENEFIT
SYNDICATE PAYS
ANNUAL DIVIDEND

Engaged in Organizing First Old Line Legal Reserve Negro Life Insurance Company in World. Headquarters Are Established in Washington.

Announcement is made of the payment of the third annual dividend by the National Benefit Syndicate Committee, of 907 F street northwest, amounting to \$2,000, being the net earnings on the capital of the National Benefit Syndicate, which has thus far been paid in by the subscribers to the shares, and which has been invested by the committee in high grade interest-bearing government, State, municipal, and first mortgage corporation bonds and dividend-paying stocks.

This will be of particular interest to the 600 shareholders now of record, as well as to those who are contemplating becoming interested in the project.

The National Benefit Syndicate Committee is actively engaged in the organization of the first old line legal reserve negro life insurance company in the world. The hearty co-operation which the men and women who are active in the commercial, educational, and professional phase of negro life in the United States are according, this undertaking justifies the expectation of an early completion of the organization work, and the beginning of the actual work of insuring lives.

In a remarkably short time over one-half of the capital required to begin the business of life insurance has been raised and paid into the treasury of the committee.

The personnel of the National Benefit Syndicate Committee includes the officers and directors of the National Benefit Association, of this city. The pronounced success of this association as the leading negro life, health, and accident organization of its kind is of national fame. For eight years the National Benefit Association has paid annual dividends of 15 per cent.

It is but natural to expect the old line legal reserve life company which the National Benefit Syndicate Committee is organizing will be successful, as evidenced by the same men who have made the National Benefit Association such a substantial and successful company.

It is a matter of record that the National Benefit Association has deposited jointly with the insurance commissioner of the District of Columbia and the insurance commissioner of the State of Maryland fifty thousand \$5,000 dollars in high-grade bonds for the protection of all policyholders. No other insurance organization making a specialty of the insurance of the lives and the health of negroes has ever made such a record since the new District requirement went into effect, and few of the companies taking other risks can boast of a similar compliance with the District code.

The president of the National Benefit Association is Dr. Robert W. Brown, and the secretary and treasurer is Samuel W. Rutherford. They are also respectively president and secretary and treasurer of the National Benefit Syndicate Committee.

Insurance companies are recognized the world over as great influences for the benefit of mankind as well as the most profitable forms of private enterprise. Such a deserving as well as profitable project as that which the National Benefit Syndicate Committee is engaged in is worthy of the hearty co-operation and financial support of every one interested in the material advancement of the race.

WEATHER CONDITIONS.

U. S. Department of Agriculture, Weather Bureau, U. S. Washington, Wednesday, March 20-21 p. m.

There has been a decided fall in temperature to winter conditions, except in the South Atlantic and Gulf States, the Pacific States, and the extreme Northwest.

It will be colder Thursday in the Southwest, the Lower Ohio and the Middle Mississippi valleys, and the West Gulf States, and the southern part of the East Gulf States and the Ohio Valley. The winds along the New England and Middle Atlantic coasts will be cold and brisk, and the North Atlantic coast moderate and fresh, and the West Gulf coast southerly and increasing, on the West Gulf coast southerly, becoming northwesterly by Friday, on Lake Michigan being to high northwesterly.

Local Temperature.

At Washington, Wednesday, March 20-21 p. m.

Temperatures in other cities, together with the amount of rainfall for the twenty-four hours ending 8 p. m., yesterday, are as follows:

Tide Table.

MISS WESTON MAKES "HIT."

Former Society Girl Is Member of Opera Company in New York.

A dispatch received from New York last night stated that Miss Kathleen Kullback Weston, daughter of Maj. Gen. Weston, U. S. A., retired, had made her stage debut in one of the comic opera new being performed there.

According to her friends in this city, where she is well known in the army, she has been on the stage for some time, and appeared at the Belasco about three months ago. She was a member of the chorus of the same opera company in which she is now appearing, was given an enthusiastic reception here, and was the recipient of many social attentions.

It is some time since she resided in Washington, and her family is now living in Atlantic City. It is said her stage name will be Kathleen Kullback.

"I did not make any special secret about going on the stage," said Miss Weston in New York yesterday, "but at the same time I had no desire for notoriety. I hope to have a small part in the near future, and once I have placed my foot on the first step of the ladder in that manner, I shall, of course, climb as high as I can."

Dixie Chapter Entertained.

Mrs. Maude Howell-Smith, president of Dixie Chapter No. 1221, United Daughters of the Confederacy, entertained the members of the chapter at her home last night, the occasion being the regular monthly meeting of the society. A feature of the evening was an address by Mrs. Martha S. Gleason, president of the Southern Industrial School of this city, who told of the work the school is doing, and its bright prospects for the future.

Following the regular business meeting, Mrs. Marion Butler, division president of the Daughters, gave a talk on matters pertaining to the welfare of the chapter.

Arranging Hoover Funeral.

Arrangements are being made for the funeral of Mrs. Margaret Hoover, thirty-eight years old, who died at Casualty Hospital yesterday from the effects of carbolic acid swallowed about a week ago while ill at the home of her sister, Mrs. Samuel Smallwood, 1923 North Capitol street.

A new German type of oil engine is built to run with tar as fuel, and is said to work very successfully.
